

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. INDIANA STATE BOARD OF MEDICAL REGISTRATION AND EXAMINATION.

How to Obtain a License to Practice Medicine in Indiana.

BY EXAMINATION.

1. Every applicant must procure the necessary blank from the Secretary of the Board, fill out completely and correctly and make affidavit before some officer authorized to administer oaths; also have two freeholders, residents of the same county and State in which applicant resides, or intends to reside, make affidavit to the moral character and to the personal identity of the applicant as the person named in the diploma. The application blank when properly filled, together with the diploma and preliminary credentials, photograph and fee, must be sent by express or registered mail to the State Board of Medical Registration and Examination, State House, Indianapolis, Indiana. Examination fee is \$25.00, and may be sent in any form except personal check.

2. Examination is required of all candidates, except those eligible to reciprocity. The subjects for examination are, anatomy, including histology and embryology; general surgery; materia medica and therapeutics; medicine; obstetrics; pathology and bacteriology; chemistry; etiology and hygiene; physiology; neurology; gynecology; laryngology and rhinology; medical jurisprudence; physical diagnosis; ophthalmology and otology, and pediatrics. The examination consists of 100 questions; possible points, 1,000; 750 points, or a general average of 75 per cent. An examination in materia medica and therapeutics is not required of applicants desiring to practice the healing art under any of the drugless healing systems.

The examination begins the second Tuesday of July and January of each year, at 9 a. m. at the State House.

All applicants must be present at the beginning of the first examination. Each applicant will have a table assigned to him by number, which will correspond to the number given on card of admission, and he will be expected to use that table during the entire examination.

3. Only graduates of reputable medical colleges are admitted to the examinations. Application for examination, accompanied

by diploma, preliminary credentials required for entrance to medical college and fee, \$25.00, must be on file in this office at least five days prior to the date of the examination. Every applicant is required to send to the Secretary of the Board, with his credentials, a recent *unmounted* photograph of himself. On the reverse side of photograph the applicant must have written his name in the presence of his freeholders, who will certify under said signature that the person whose name appears above is personally known to them to be the person shown in said photograph, and that the signature was written in their presence, and that he is the person they recommend in the "Freeholders' Affidavit." No applicant will be admitted to the examination who has not complied with this rule in every respect. A card of admission will be issued to every applicant whose credentials are received in due time and are satisfactory. No one will be admitted to the examination unless he presents said card the morning examination begins. Do not misplace card of admission, as we do not issue duplicate cards.

4. Any applicant who desires to be examined in a foreign language must notify the Secretary of the Board of the fact at least two weeks before the examination, and forward with the said information the translation fee of \$15.00.

5. Temporary permits to practice medicine, surgery and obstetrics until one month after the next regular meeting of the Board are issued on request, when the application is complete and satisfactory, diplomas inspected and fee paid in full. Temporary permits are issued only to applicants not eligible to a former examination and to applicants entering through reciprocity. Applicants are required to take first examination after graduation or preceding examination. *Do not file permit with county clerk.* Temporary permits are issued to all entering the State through reciprocity, and same is exchanged for permanent certificate at the expiration of six months of actual residence in Indiana. Permanent certificate to practice *will not* be issued until temporary permit is returned to this office.

6. Upon receipt of permanent certificate by the applicant, he shall, upon the presentation of the same to the clerk of the county in which he resides, receive a license to practice medicine, surgery and obstetrics within the State of Indiana. This license entitles the holder to practice in the State so long as he maintains his residence in the county in which said license was issued. In case of change of residence from one county to another within this State,

he holder of a physician's license shall obtain a new license in the county where he proposes to reside, by filing with the county clerk the license he obtained from the county clerk of the county of his last residence, and the clerk shall issue to him a new license. It is not necessary to take out new license unless permanent change of residence is made.

7. No person is legally qualified to practice the healing art in any form, or under any name, within the State of Indiana, who has not first procured a license or temporary permit to do so under the acts of 1897, 1899, 1901, 1905 or 1909.

8. Former sets of examination questions are not sent out, except as they appear in each annual report, which will be mailed on receipt of fifteen cents for postage.

9. Applicants who have attended more than one medical school must furnish a statement over the seal and signature of the proper officers of each school attended, giving the date of matriculation, number of terms attended, subjects studied and whether or not applicant left said school in good standing. Blanks for this purpose will be sent upon request.

10. Applicants who have failed at two or more examinations before the Indiana Board will not be admitted to a subsequent examination unless evidence of additional study is furnished with a new application.

The following requirements for preliminary education must have been complied with by all applicants for examination:

A.

Applicants matriculating prior to February 1, 1903, must furnish such evidence of preliminary education as required by the Association of American Medical Colleges at the date of matriculation.

B.

Applicants matriculating subsequent to February 1, 1903, and prior to January 1, 1910, must submit a diploma or certificate of graduation from a commissioned high school of the State of Indiana, or a diploma or certificate of graduation from a high school whose curriculum embraces at least the following or equivalent:

Or, a certificate of qualification from a State Medical Examining Board, or a Board of Preliminary Examiners, after a successful examination before said Board, with an average grade of not less than 75 per cent. in the branches named above. Said examination must be conducted by or under the authority of the State Board of Medical Examiners of the State in which examination is given, and must fulfill the minimum requirements for preliminary education in the State of Indiana.

C.

In addition to the foregoing evidence of preliminary qualification, all applicants for license to practice medicine in Indiana, matriculating subsequent to January 11, 1910, are required to submit satisfactory documentary evidence of having completed all the freshman work in a recognized university or college of arts and science; and,

D.

All applicants for license to practice medicine in Indiana, matriculating subsequent to January 1, 1911, are required to submit satisfactory documentary evidence of having completed one-half of the work in a recognized university or college of arts and science.

required to obtain the B. S. degree in such university or college of arts and science.

NOTE.—Applicants who can not furnish a diploma or certificate of graduation from a commissioned high school of Indiana as described under 1 (a) must furnish an itemized statement of the subjects studied, upon a blank which can be obtained from the Secretary of the State Medical Examining Board.

THROUGH RECIPROCITY.

1. Every applicant must procure the necessary blank from the Secretary of the Board, fill out completely and correctly and make affidavit before some officer authorized to administer oaths. When properly filled the blank should be sent to the State Board of Medical Registration and Examination, State House, Indianapolis, for inspection. If O. K. the applicant will be notified to appear in person for identification.

2. The fee for license through reciprocity is Fifty (\$50.00) Dollars and may be sent in any form except personal check. Make draft or postal order payable to W. T. Gott, Secretary.

RULE 3. The applicant must furnish certificate from the Secretary and President of County, District or State Medical Society, that he has been in reputable practice in the State from which he comes, for at least one year *immediately preceding* the date of application. The certificate referred to must bear the official seal of the society. In the absence of seal the certificate must be signed and sworn to before some officer authorized to administer oaths.

Note.—No other evidence than the above will be accepted.

RULE 4. A small unmounted photograph must be attached to application, as a means of identification.

RULE 5. The applicant must be the legal possessor of a diploma issued by a medical college recognized as in good standing by the Indiana State Board of Medical Registration and Examination.

RULE 6. The applicant must satisfy the Indiana Board that his preliminary education was substantially the equivalent of the requirements in force in this State at the date of his matriculation.

Applicants who can not furnish a diploma or certificate of graduation from a commissioned high school of Indiana or equivalent, must furnish an itemized statement of the subjects studied, and credits obtained, upon a blank which may be obtained from the Secretary of the Indiana Board upon request.

A diploma from a high school or academic school outside the State of Indiana, must be accompanied by a statement from the

State Department of Education, of the State where said school is located, that it is a first grade or commissioned high school of that State.

Applicants matriculating subsequent to January 11, 1910, and prior to January 1, 1911, are required to submit, in addition to high school credentials, satisfactory documentary evidence of having completed all of the freshman work in a recognized university or college of arts and sciences.

Applicants matriculating subsequent to January 1, 1911, must submit in addition to above, satisfactory documentary evidence of having completed *one-half* of the work necessary to obtain the B. S. degree in a recognized university or college of arts and science.

In lieu of such college or university work, there may be offered an equivalent amount of work in a normal or other school whose credits are transferable and acceptable to such recognized college or university as contemplated above. The Board may require as evidence of this equivalency, a certificate from a college or university acceptable to the Board, stating that the credits are so acceptable by said institution. A blank for such endorsement may be obtained upon request.

RULE 7. Applicants who have taken the Indiana examination and have failed to obtain a passing grade, are not eligible to licensure through reciprocity unless such applicant furnishes satisfactory documentary evidence of having credits for attendance of not less than eighty per cent. of one full college year's work, of not less than eight months, in a medical college recognized by the Indiana Board, in addition to the educational qualification possessed by the applicant at the time of examination before the Indiana Board. In lieu of the one year's college work referred to above the applicant may, through the Secretary of the State Board of the State issuing original certificate, submit the questions and answers papers on which the original license was obtained, and if satisfactory the Indiana Board may issue its certificate thereupon.

RULE 8. Applicants holding a legal license in two or more States are required to furnish this Board with the official endorsement of each and every State where license has been obtained.

RULE 9. All applicants, *regardless of the system of healing employed*, are required to comply with the same rules and requirements.

RULE 10. Temporary permits to practice medicine, surgery and obstetrics, until the applicant has been a resident of the State six months, may be issued when the application is complete and satisfactory, diploma recognized and fee paid in full.

RULE 11. For its own protection, the Indiana Board deems it necessary to require that every applicant for license through reciprocity shall appear in person, by appointment for identification before the Secretary, Clerk or some other member of the Board, before permit is issued.

RULE 12. Application, photograph, medical diploma fee and preliminary credentials, should be forwarded to the Indiana Board for inspection, and if O. K. the applicant will be notified to appear in person for identification before permit is issued.

RULE 13. Diplomas must be sent by express prepaid, or by registered mail. All diplomas are returned by express collect unless postage is furnished for return by registered mail.

RULE 14. In order that the Indiana Board may determine the eligibility of applicants who desire to be licensed in Indiana, the above rules must be complied with in *every* particular.

RULE 15. Applicants attending more than one medical school must furnish a sworn statement from each school attended, giving the date of matriculation; number of terms; subjects studied; and whether or not applicant left said school in good standing.

At the present time Indiana has established reciprocal relations, *on the basis of an examination only*, with the following States: Georgia, Illinois, Louisiana, New Hampshire, New Jersey, New York, Pennsylvania, Texas, Virginia and Wyoming. Licentiates of either of the States named must have been licensed after successfully passing a written examination, before being eligible to registration in Indiana through the medium of reciprocity.

Indiana will admit to licensure the licentiates of the following States, *on the basis of either an examination or diploma* from a reputable medical college without examination, provided the diploma and license were issued prior to the date of the taking effect of the examination requirement in Indiana, viz., March 11, 1901: Arkansas, Colorado, Kansas, Kentucky, Maine, Maryland, Michigan, Minnesota, Missouri, Mississippi, Nebraska, Nevada, North Carolina, Ohio, Oklahoma, Tennessee, Utah, Vermont, West Virginia, Wisconsin and District of Columbia.

While the above States have entered into reciprocity with Indiana, each State reserves the right to reject applicants who do not comply with the rules and regulations governing reciprocity in the State where license is sought.

The following States do not reciprocate under any conditions: Alabama, Arizona, Florida, Idaho, Massachusetts, Montana, Oregon, Rhode Island, South Dakota and Washington.

MIDWIFERY.

How to Obtain a License to Practice Midwifery in Indiana.

Applicants for license to practice midwifery in Indiana must submit to a written examination before the State Board of Medical Registration and Examination. Examinations are held the second Wednesday of January and July of each year at the State House.

The examination fee is Ten (\$10.00) Dollars. If applicant wishes to be examined in a foreign language it will be necessary to notify the Secretary of the State Board of Medical Registration and Examination at least ten days prior to examination what language is desired. An additional fee of Ten (\$10.00) Dollars is required for translation.

The application blank must be filled out completely and correctly and placed on file, with fee, photograph, and diploma, at least five days prior to examination.

Temporary permits are not issued. Certificates are not issued until a satisfactory showing is made by written examination that applicant is competent to practice midwifery.

All communications should be addressed to

DR. WM. T. GOTT, Secretary,
Indiana State Board of Medical Registration and Examination,
State House,
Indianapolis.

REQUIREMENTS FOR MEDICAL COLLEGES.

Minimum Requirements for Medical Colleges and Students to Accounted in Good Standing with the Indiana Board of Medical Registration and Examination, 1915.

After January 15, 1914, only such medical colleges shall be considered in good standing by the Indiana State Board of Medical Registration and Examination as have:

(1) Complied with the requirements of this Board heretofore in force.

(2) And that possess an adequate and competent faculty teaching medicine, surgery, and obstetrics in all their branches.

(3) And that afford their students adequate clinical and hospital facilities.

(4) And that embrace in their curriculum anatomy, physiology, chemistry, materia medica, therapeutics, medicine, surgery, obstetrics, gynecology, histology, pathology, pediatrics, bacteriology, ophthalmology, otology, laryngology, rhinology, dermatology, physical diagnosis, hygiene and medical jurisprudence.

(5) And that require attendance upon at least eighty (80) per cent. of each course of instruction. *No matriculation shall be considered valid that antedates actual attendance more than ten (10) days.*

(6) And that give four graded courses of instructions of not less than eight months each, in separate calendar years, the aggregate of which amounts to at least 120 weeks of at least 30 hours each; and at least 42 months must have elapsed between the student's matriculation and graduation.

(7) And that require an average grade in each course of instruction of at least 75 per cent. in examination as a condition of graduation.

(8) And that fulfill all their published promises, requirements and claims respecting advantages to their students and courses of instruction.

(9) All medical colleges in good standing with the Indiana State Board of Medical Registration and Examination shall publish annually a catalogue showing the number of matriculants, and the date of their matriculation; and also a separate list of all graduates of the session or year next preceding and *shall publish a full*

and comprehensive description of their laboratories, together with a specific statement in detail of the equipment and facilities of each.

(10) And that require, as a prerequisite to matriculation, compliance with the "Prerequisites to Matriculation" heretofore set forth.

(11) And that admit students to advanced standing only in compliance with the "Conditions Affecting Advanced Standing" hereinafter set forth.

The Board would recommend the following as minimum equipment for medical colleges:

I. ANATOMY.

A. GROSS ANATOMY.

1. A lecture room.
 - a. Mounted skeleton for demonstrations.
 - b. Anatomical models and charts.
 - c. Preserved anatomical preparations and specimens for study and demonstration.
2. A dissecting room well lighted and ventilated and well kept.
 - a. Store room and vats for preserving cadavers or equivalent conveniences.
 - b. Apparatus for embalming cadavers or equivalent facilities.
 - c. Instruments for post-mortem technique.
 - d. Unmounted skeletons for use by students.
 - e. Cadavers sufficient to furnish opportunity for each student to dissect a lateral half of the body, not more than four students being assigned to each cadaver.

HISTOLOGY.

A. General apparatus:

1. The paraffin bath and its accessories—(thermometer, tubing and gas regulator) for embedding purposes.
2. Two microtomes—one for cutting celloidin sections and one for cutting paraffin sections, or an interchangeable microtome will do.
3. A projection lantern and an adequate collection of slides of tissues and organs, or an adequate set of charts to illustrate visually the structure of tissues and organs.

4. An injection apparatus and such reagents and materials as are required for the preparation of specimens.

These will include:

Paraffin, hardening, clearing, reagents and stains, teasing needles, scissors, knives, camel-hair brushes, beakers, staining dishes, etc.

- B. The individual student's equipment:

One microscope for each two students, one oil immersion lens for each six students, Abbe condenser and diaphragm for each six students, slides and covers, labelling stains and staining dishes, suitable reagents for mounting specimens, drawing material, alcohol lamp or Bunsen burner, teasing needles, camel-hair brushes, lifting medicine droppers.

PHYSIOLOGY.

- a. Lecture room.
- b. Laboratory.

Classes should be divided into groups of not to exceed four or five students.

- c. For Hematology.

Collection of hemacytometers, hemometers, spectroscope, fully equipped compound microscopes and reagents and apparatus used in histology.

- d. For muscle and nerve work.

Equipment: Myographs, including muscle clamps, muscle lever, supports, recording surfaces or a clock-work kymograph, chromograph, and stimulating apparatus including an electric battery, keys, induction coil, electrodes and rheostat or rheochord, moist chamber with accessories for nerve work, double cylinder for heating and cooking tissues.

- e. For circulation experiments:

Heart lever, manometer with accessories, sphygmograph, tonometer with accessories, apparatus for studying capillary circulation, rubber tubing, cannulas, wire, etc., and such other accessory articles as are needed for carrying on experiments.

- f. General equipment:

Polariscope, galvanometer, capillary electrometer, mercury pump for gas analytical work and accessories, thermostat or incubator, analytical balance, assorted tumbours, assorted

cannulas, chemical reagents, chemical apparatus, hydrometers, induction coils.

g. For work on the special senses:

Artificial eye, perimeter, ophthalmometer, ophthalmoscope, lenses, esthesiometer, color mixer, phorometer, tuning forks, ear model, Galton whistles, resonators.

h. Respiration apparatus: Spirometer.

ARTERIA MEDICA.

- a. A good collection of drugs in the crude state.
- b. In the laboratory, the class should be divided into groups of not more than five students each.
- c. Each student should be provided with test tubes and rack, beakers, glass funnel and filter paper, graduates (4 oz. and 8 oz.), filter stand, mortar and pestle, spatula, glass slab for making ointments, one balance per group of ten students.

The general apparatus:

An induction coil, mercury manometers, vein manometers, cannulas, blood pressure apparatus, a drum cylinder, an aspirating syringe, a cardiomygraph, drugs and their preparations must be supplied, and such other apparatus as is necessary to study the effect of drugs on the muscles and nerves.

ELECTRO-THERAPEUTICS.

Well-equipped darkroom, with necessary reagents for developing plates.

The equipment ought to include either (1) an induction coil, of standard make, or (2) a static machine; a high frequency resonator; fluoroscope; electrodes; mercury turbine interruptor, or some other standard make; rheostat; X-ray tubes (therapeutic and diagnostic), tube rack and stand.

CLINICAL DIAGNOSIS.

In this department there must be apparatus for making complete microscopic and chemical tests. These may be obtained from other departments of the college referred to above if there is not a conflict of hours. The equipment must provide for the examination of blood, tissues, excretions, exudates and secretions.

The students should be divided into groups for this work as may be convenient.

PATHOLOGY.

This department should be supplied with charts, all gross specimens obtained from post-mortem and surgical. The remaining general equipment and the individual equipment of the student is the same as in Histology.

EMBRYOLOGY.

Equipment same as for the department of histology that the general equipment should include one set of micro-

BACTERIOLOGY.

As in the other departments, it is preferable to divide classes into groups of four or five each, and for each group shall be provided one steam and one hot air sterilizer, one pound microscope with oil immersion lens and condenser, the apparatus necessary for preparing the culture media as a set of double boilers, cork borers, a stand with ring clamps, a potato cutter, gelatin, cheesecloth, cotton, filter and litmus paper. An autoclave and a serum oven are sufficient for each twenty-five students.

Each student must be provided with test-tubes, rack, basket, test-tube brush, petri dishes, flasks, platinum needle, Bunsen burner, and tubing, fermentation tubes, forceps, and if not provided by the college, the student must be required to supply himself with slides, cover glasses, labels, stains, boxes, and counting materials.

The department will be supplied with such apparatus and materials as are necessary for the study of bacteria, including animal cages, etc., for experimental work.

CHEMISTRY.

The department of chemistry must be supplied with balances, centrifugals, fume chambers, drying ovens, a polariscope, spectroscope, Kjeldahl nitrogen apparatus, apparatus for analyzing milk, microscopes, and a good stock of chemicals, reagent bottles and reagents.

Each student should have an outfit containing beakers, test-tubes, litmus paper, flasks of various sizes, funnels, test pipettes—plain and graduated, mortar and pestle, filter, iron wire triangle, wire gauze, Bunsen burner and hose, porcelain crucibles, platinum wire and foil, glass stirring rods, tubing, test tubes and test rack, test tube brush, filter paper, tongs, graduated burette, water bath, sand bath, rubber

vers, set of reagent bottles, gas generating flask, small pair druggist's scales, and such other materials as may be needed from time to time for doing special work and which the student receives on making requisition for them.

PHYSIOLOGIC CHEMISTRY.

Much of the material used in this department may be obtained from the departments of Chemistry and Physiology, and it is not necessary to make any special requirements. If the departments of Chemistry and Physiology are well equipped the department of Physiologic Chemistry is sure to be supplied with all needed apparatus.

CLINICS.

1. Every college must have access to a hospital.
2. Two beds for each senior student.
3. One patient to each bed.
4. Fifty dispensary patients to every senior student.

OBSTETRICS.

Each student should be required to be in attendance on at least five cases in obstetric practice.

MUSEUM.

A properly stocked museum containing anatomic specimens, embryologic specimens, pathologic specimens, models, charts, drawings, shelves and other facilities for storing the specimens.

The anatomic collection should contain specimens of normal bones, injected specimens, dissected specimens of joints, muscles, nerves, brain and other parts of the body.

The embryologic section should consist of models, and slides showing an embryo in various stages of development. Lantern slides are also useful.

The pathologic section must include specimens of all kinds, in bulk.

LIBRARY.

The minimum of library facilities of a medical school should consist of a well-lighted, ventilated and comfortably warm reading room, supplied with chairs and tables for the comfort and convenience of the students. There should be the current medical periodicals and standard textbooks on the subjects of each

department taught in the college. The library should be catalogued and made available for use and placed under the supervision of a librarian. The librarian may be a student competent to perform such duties.

CONDITIONS AFFECTING ADVANCED STANDING IN A MEDICAL COLLEGE.

1. Colleges may honor the official credentials presented by students from other colleges having the standard requirements provided herein, excepting for the fourth year of their course, but *no college shall* admit a student to advanced standing without first communicating with the college from which such student desires to withdraw, and receiving from the dean of such college a direct *written* communication certifying to the applicant's professional and oral qualifications, and to the exact work he has done in said college. The said certificate must be submitted to this Board for inspection with diploma: Provided, All rules in conflict with the above are hereby repealed.

2. Graduates of regularly established and recognized universities or colleges of art and science, possessing a B. S., A. B. or equivalent degree, may be admitted to the sophomore year of a four-year medical course in a recognized medical college, provided applicants holding such degrees furnish satisfactory documentary evidence of having completed all the work of the medical freshman year, in obtaining such degree.

3. Students presenting a satisfactory certificate from a recognized university or college of arts or science, requiring four years as an essential to graduation, of having completed three years of such course, may be admitted to the sophomore year of a four-year medical course in a recognized medical college: Provided, Such certificate from such scientific or literary college shall show that the medical degree from such medical college will entitle the holder to the bachelor's degree from the institution granting such certificate: And provided, Such students have complied with the entrance requirements of this Board as herein mentioned, and have completed all the work of the medical freshman year before advancement to the sophomore year in said medical college.

4. Graduates of a recognized university or college of arts or science requiring a four-year course of study as an essential to graduation, may be admitted to the junior year of a medical college recognized by this Board: Provided, Such university, or college of arts or science embraces in its curriculum, and possesses adequate

equipment for teaching, all of the subjects taught in the freshman and sophomore years of the medical college in which admission is sought: And provided, That applicants for such standing shall present satisfactory evidence of having completed the work of the freshman and sophomore years of such course.

DIANA MEDICAL LAW OF 1897, WITH AMENDMENTS OF 1899, 1901, 1905 AND 1909.

ACT regulating the practice of medicine, surgery and obstetrics, providing for the issuing of licenses to practice, providing for the appointment of a State Board of Medical Registration and Examination and defining their duties, defining certain misdemeanors and providing penalties, and repealing all laws in conflict therewith and certain acts therein specified.

[H. 226. Approved March 8, 1897.]

[Acts 1897, p. 255.]

Section 1. Be it enacted by the General Assembly of the State of Indiana, That it shall hereafter be unlawful for any person to practice medicine, surgery or obstetrics in this State without first obtaining a license so to do, as hereinafter provided.

**Act creating
Board.**

Sec. 2. After this law goes into effect, any person desiring to begin the practice of medicine, surgery or obstetrics in this State, shall procure from the State Board of Medical Registration and Examination a certificate that such person is entitled to a license to practice medicine, surgery and obstetrics in the State of Indiana and in order to procure such certificate the applicant shall submit to the State Board of Medical Registration and Examination his diploma, with an affidavit setting forth the time and number of terms, duration of each term, applicant was required to be in attendance at said school in order to complete said course of study, and that the affiant is the person to whom such diploma was issued. Such application shall be accompanied by the affidavit of two freeholders resident in the same county in which the applicant resides, stating that the applicant is the person named in the accompanying diploma and application for a certificate. All diplomas received by the Board shall be returned to the person owning the same, and for failure to return any diploma to its lawful owner within a reasonable time the secretary of said Board shall be liable on his bond for damages

in the sum of twenty-five dollars (\$25). Such applicant shall pay to said Board the sum of ten dollars (\$10) at the time of making such application. Persons who were practicing medicine, surgery and obstetrics in the State of Indiana on March 1, 1899, and have not complied with the provisions of this act and desiring to continue the same, shall, on or before July 11, 1899, obtain a certificate that they are entitled to do so by presenting to the State Board of Medical Registration and Examination the diploma or license possessed by them at the time of the passage of this law, together with an affidavit that they are the true and lawful possessors of the same, and the persons mentioned therein, and such applicant shall pay to the Board the sum of one dollar (\$1) at the time of making such application. The Board shall thereupon issue to such applicant a certificate, which, when presented to the County Clerk of the proper county, shall entitle the holder to a license to practice medicine, surgery and obstetrics in the State of Indiana. In the event an applicant for a certificate from the Board of Medical Registration and Examination does not present a diploma from a medical college which is recognized as maintaining a sufficiently high standard of medical education as defined and established in the records of the Board, the applicant shall be required to take the privilege of being examined as to his qualifications to practice medicine, surgery and obstetrics in such manner as the Board shall provide, and if he shall pass an examination satisfactory to the Board, he shall receive a certificate, the same as if he had presented a satisfactory diploma and other evidence of his qualifications for the practice of medicine. If he should fail to pass such examination he shall be permitted to submit to another examination within twelve months from the time of the first examination. He shall pay to the State Board of Medical Registration and Examination the sum of twenty-five dollars (\$25): Provided, however, That payment of the sum of twenty-five dollars (\$25) shall entitle him to a re-examination in case of failure at the first or

sequent examination: And provided further, That such applicant shall fail to pass the examination prescribed by such Board of Medical Registration and Examination, he shall have the right to an appeal to the Circuit or Superior Court of the proper county, requiring such Board to show cause why such applicant should not be permitted to practice medicine, surgery or obstetrics in the State of Indiana, upon the applicant giving a good and satisfactory bond to be approved by the court, to secure all costs of suit should the appeal be determined against him. Upon the receipt of the certificate by the applicant from the State Board of Medical Registration and Examination, the applicant shall, upon the presentation thereof to the Clerk of the county in which he resides, receive from the County Clerk a license to practice medicine, surgery and obstetrics within the State of Indiana. The person receiving such license shall pay to the County Clerk fifty cents (0.50) as his fee for issuing and recording such license as hereinafter provided. In case of change of residence from one county to another within this State, the holder of a physician's license shall obtain a new license in the county where he proposes to reside, by filing with the County Clerk the license obtained by him in the county in which he last resided, in the same manner as provided for on the presentation of his certificate from the State Board of Medical Registration and Examination, and the Clerk shall issue him a new license. (As amended March 3, 1899, Acts 1899, p. 247.)

Sec. 3. It shall be the duty of the Clerk of the county in which an applicant resides to issue to the person presenting such certificate as hereinbefore provided for, a license under his official seal in the following form:

**Minimum
requirements.**

The State Board of Medical Registration and I amination shall, from time to time, establish and

l in a record, kept by them for that purpose, a schedule of the minimum requirements which must be complied with by applicants for examination for license to practice medicine, surgery and obstetrics, before they shall be entitled to receive such license. The said Board shall also, in like manner, establish a schedule of cause to be recorded in such record a schedule of the minimum requirements and rules for the recognition of medical colleges, so as to keep these requirements up to the average standard of medical education in other States. After the year 1897 no change shall be made in such schedules of requirements in any year after the month of January of each year, nor shall any change be made to have any retroactive effect, or that shall affect students heretofore matriculated. Such record shall be at all times open to examination by the public, and the said schedules of requirements, after they have been established and recorded, and all changes made thereon, shall be printed in circular form, and mailed to all medical colleges in the State, and shall also be furnished to any person upon application. Said Board shall not, in the establishment of the aforesaid schedule of requirements, discriminate for or against any school or system of medicine, nor shall it prescribe what system or systems or schools of medicine shall be taught in any of the colleges, universities or other educational institutions of the State.

It shall have power to make and establish all necessary rules and regulations for the reciprocal recognition of certificates issued by other States, and to prevent unjust and arbitrary exclusions by other States of graduates in medicine from this State who have fulfilled its requirements. When an application for a certificate is made, and a diploma submitted, as herein provided, it shall be the duty of the State Board of Medical Registration and Examination to determine, upon the evidence presented, whether such diploma rightfully belongs to and was issued to the

person making application for a certificate whether the medical college that issued the same maintains a standard of medical education conforming to that fixed by the State Board of Medical Registration and Examination, and whether the education otherwise complies with the rules of the board.

If these facts are shown by competent evidence, it shall be the duty of the State Board of Medical Registration and Examination to issue a certificate signed by its President and Secretary, and under its official seal, stating that the person applying for the certificate and possessing such diploma is entitled to a license to practice medicine, surgery and obstetrics in the State of Indiana: Provided, Said application shall be filed prior to January 1, 1905: And provided further, Said applicant shall have, prior to January 1, 1901, matriculated in a reputable medical college in Indiana, maintaining a standard of medical education conforming to that fixed by said Board, and shall have graduated from said college and received his diploma therefrom, prior to January 1, 1905: Except, as last above provided, no certificate shall be issued to any person whomsoever until he shall have satisfied the said Board that he has graduated from a reputable medical college as in this section set forth, maintaining a standard of medical education as prescribed, and shall have passed before said Board a satisfactory examination as to his qualifications to practice medicine, surgery and obstetrics. Such examination shall be had upon payment of the fees and upon the same terms and conditions as are provided in Section 1 of said act, approved March 8, 1897, but the applicant shall have the right to designate, in writing, at the time he files his application, the member of the Board who shall conduct the first examination in materia medica, therapeutics, theory and practice of medicine, surgery, obstetrics and gynecology.

The Board at its discretion may authorize the Secretary to issue a temporary permit to an applicant for the interim from date of application until the next regular meeting of the Board. The State Board

Medical Registration and Examination shall have the right to review the evidence upon which a license has been obtained, and if it shall be found that a license has been obtained by fraud or misrepresentation, the Board may revoke such license. The Board may] refuse to grant a certificate to any person guilty of felony or gross immorality, or addicted to the use of liquor or drug habit to such a degree as to render him unfit to practice medicine or surgery.

**Grounds for
revocation.**

If any person holding a license under the provisions of this act shall be guilty of any of the above enumerated acts or shall have procured a certificate or license by fraud or misrepresentation, said Board may, after notice and hearing, revoke any license which has heretofore been or may hereafter be issued to him, together with the certificate upon which such license has been or may be issued.

A specific written charge, verified by affidavit, must be presented to the Board, making definite and specific charges of such facts against the holder of such license. The Board shall thereupon fix a time and place for the hearing of such charges, at which the person charged may appear and defend against the same. A copy of such charges, together with a notice of the time and place fixed for the hearing, shall be served upon the person so charged at least twenty (20) days before the time set for the hearing of the same. If, after such hearing, the Board revokes such certificate and license, such order shall be by said Board entered upon its record. A copy of such order of revocation, certified by the Secretary of such Board, shall be by it at once delivered to the Clerk of the Circuit Court of the county in which such license was issued, and such Clerk shall record the same upon the margin of the record of such license. If the Board shall refuse to grant a certificate for any of the reasons above stated, it shall enter such refusal upon its record, together with a statement of the grounds for such refusal. An appeal may be taken from the action of the Board to the Circuit or Superior Court of the county in which such license was issued in case of revocation, and to the county where

which the applicant has been engaged in such practice, and the special education, if any, which the applicant has received for such practice. Such application shall be accompanied by the affidavits of two freeholders, duly attested, that the applicant is known to them as the person applying for a certificate to practice midwifery, and that such applicant has been engaged in the active practice of midwifery, giving the location or locations of such practice for the last ten (10) years previous to the passage of this act. Upon such application and the payment of one dollar (\$1) the State Board of Medical Registration and Examination shall issue to the applicant a certificate which shall, when presented to the County Clerk, entitle the holder to a license to practice midwifery in this State. All persons desiring to enter upon the practice of midwifery in this State after this law goes into effect shall present to the State Board of Medical Registration and Examination their diplomas, duly attested, and procured from an obstetrical school of such standing as shall be recognized and determined by the Board. Such applicant shall pay to said Board the sum of five dollars (\$5) at the time of making such application; or such applicant shall submit to an examination in midwifery as the Board shall require, and pay a fee of ten dollars (\$10). Such evidence of qualification being satisfactory to the Board it shall issue a certificate entitling the holder to a license from the Clerk of the county in which the applicant resides, which license shall entitle the holder to practice midwifery in this State. The license thus issued shall conform to all requirements of registration imposed upon physicians' licenses in Section two of this act and shall be subject to revocation for the same cause as provided in Section five in case of license to physicians. however, That the said student had not practiced medicine, surgery or obstetrics prior to the passage

of this act; in the event the amount of time said student has practiced medicine; surgery or obstetrics

shall be deducted from the said two years herein mentioned; and in no event shall the said student open

an office or offer to engage in the practice of medicine, surgery or obstetrics. Any person violating any of

the provisions of this section shall be deemed guilty of a misdemeanor, and on conviction thereof shall

be subject the offender to a fine of not less than twenty-five dollars (\$25) nor more than two hundred dol-

Sec. 9. Any person who shall practice medicine, surgery or obstetrics in this State without having a license duly issued as hereinbefore provided, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than twenty-five dollars (\$25) nor more than two hundred dollars (\$200).

Sec. 10. All laws and parts of laws in conflict with this act are hereby repealed, and also an act entitled, "An act regulating the practice of medicine, surgery and obstetrics, providing for the issuance of a license to practice, defining certain misdemeanors and providing penalties," approved April 11, 1885, and all amendments thereto be and the same are hereby repealed.

Additional Sec. 3. Three thousand (3,000) copies of the annual report of the Board to the Governor shall be printed in the same manner as the report of the State Board of Health; and the printing and stationery of the Board shall be paid out of the

nting fund. (Added in 1899 and amended March 1901.)

Additional Sec. 4. The said Board may grant limited certificates which shall authorize the proper clerk to issue to the holder thereof a license to practice osteopathy only. Such certificate shall be issued on the same terms and conditions as others, except that the applicant therefor shall not be required to pass an examination in materia medica, nor shall the college from which he presents a diploma be required to conform to the standard fixed by said Board as to instructions in materia medica, but such college shall conform in all other branches of instruction. Such license shall not authorize the holder thereof to administer or prescribe or use on one other than himself any drugs or medicines, and any such administration, prescription or use of any drug or medicine by the person holding such limited license shall be practicing medicine without a license, and such person shall be punished therefor as others are punished for practicing medicine without a license: Provided, further, That any person now holding a diploma issued from any college of osteopathy in the United State, and [who] is [now] a resident of the State of Indiana, shall be granted a certificate and license to practice osteopathy upon presenting his diploma to said Board and clerk and paying the fee required by this act.

(b) Give symptoms of chronic interstitial nephritis.
(c) Give differential diagnosis of interstitial nephritis.
(d) Give prognosis of interstitial nephritis.
4. Give diagnosis of hemorrhagic apoplexy.
5. Give diagnosis of chronic lead poisoning.

Submitted by M. S. Canfield, M. D.
Frankfort, January, 1914.

PHYSICAL DIAGNOSIS.

1. (a) Give methods of examining the thoracic organs.
(b) Give regional anatomy of the chest.
2. Give causes of a diminution in the intensity of the breath sound.
3. Give physical signs of cardiac hypertrophy affecting the right ventricle.
4. Give diagnosis of aortic stenosis.
5. Give differential diagnosis, distinguishing acute pulmonary edema from broncho-pneumonia.

Submitted by M. S. Canfield, M. D.
Frankfort, July, 1914.

OPHTHALMOLOGY AND OTOTOLOGY.

1. Give symptoms, diagnosis and treatment of foreign bodies in the eye.
2. Give diagnosis, prognosis and treatment of otosclerosis.
3. Give causes, diagnosis and treatment of granular conjunctivitis.

Submitted by M. S. Canfield, M. D.
Frankfort, January, 1914.

OPHTHALMOLOGY AND OTOTOLOGY.

- Define: (a) Hyperopia; (b) Myopia; (c) Astigmatism.
 (a) Define trachoma; (b) Give causes; (c) Give treatment.
 Give physiology of internal ear.

Submitted by M. S. Canfield, M. D.
 Frankfort, July, 1914.

CHEMISTRY.

- What is the source of iodine?
 Give qualitative and quantitative test for hydrochloric acid in stomach contents.
 Give test for sugar, albumen and bile in urine.
 Give formula and proper name for carbolic acid.
 What do you understand by molecular and atomic weight?

Submitted by Jas. M. Dinnen, M. D.
 Ft. Wayne, July, 1914.

CHEMISTRY.

1. Give the formula of phenol, muriatic acid, and sulphuric acid.
2. Give test for urea, bile-pigments, sugar and albumen in urine.
3. Give quantitative and qualitative test for hydrochloric acid in stomach contents.
4. Give test for iodine and its source.
5. What is meant by molecular and atomic weight?

Submitted by Jas. M. Dinnen, M. D.
 Ft. Wayne, January, 1914.

RHINOLOGY AND LARYNGOLOGY.

1. Give common causes of hypertrophy of turbinates.
2. What is an epulis?

Submitted by Jas. M. Dinnen, M. D.
 Ft. Wayne, January, 1914.

RHINOLOGY AND LARYNGOLOGY.

1. What constitutional diseases may manifest themselves in the nose?
2. Etiology, symptoms, diagnosis and prophylaxis of diphtheria.

Submitted by Jas. M. Dinnen, M. D.
 Ft. Wayne, July, 1914.

MEDICAL JURISPRUDENCE.

1. What constitutes a legal abortion?
2. What is the first thing to do in case of violent death?

Submitted by Jas. M. Dinnen, M. D.
 Ft. Wayne, July, 1914.

MEDICAL JURISPRUDENCE.

1. Give post mortem appearances in case of poisoning by strychnine.
2. What is the meaning of medical jurisprudence in relation to infanticide?

Submitted by Jas. M. Dinnen,
Ft. Wayne, Ja

SURGERY.

1. Define sepsis and asepsis.
2. Give etiology, symptoms, diagnosis and treatment of psoas abscess.
3. Give symptoms and treatment of cholecystitis.
4. Give etiology, symptoms, diagnosis and treatment of gastric ulcer.
5. Give etiology, symptoms, diagnosis and treatment of appendicitis.
6. Name structure severed in an amputation of middle third of femur.
7. Give complete treatment in a compound fracture of tibia and fibula.
8. Give diagnosis and treatment of a complete rupture of the abdominal wall.
9. What is a Pott's fracture? Give treatment.
10. Name five causes of swelling in inguinal region.

Submitted by Jas. M. Dinnen, M.D.,
Ft. Wayne, Janu

SURGERY.

1. Give etiology and treatment of psoas abscess.
2. Give diagnosis and treatment of hydrocele.
3. Give four methods of controlling hemorrhage.
4. Give technique of sterilization of the hands.
5. Give differential diagnosis of osteomyelitis and acute rheumatism.
6. Give diagnostic points of fracture of base of skull.
7. Through what channels is carcinoma disseminated.
8. Give indications for trephining in fracture of the skull.
9. Name five causes of swelling in inguinal region.
10. Explain process of repair in fractures.

Submitted by Jas. M. Dinnen, M.D.,
Ft. Wayne, Jul

NEUROLOGY.

1. Define: (a) Delusion, (b) Illusion and (c) Hallucination.
2. What is Leyden's neuritis?
3. What is Bell's palsy?

Submitted by James M. Dinnen, M.D.,
Ft. Wayne, July

NEUROLOGY.

1. What is meant by Argyll-Robertson pupil?
2. Give symptoms of multiple-sclerosis.
3. Locate Broca convolutions.

Submitted by James M. Dinnen, M.D.,
Ft. Wayne, January

THEORY AND PRACTICE OF OSTEOPATHY.

- Outline the treatment for constipation.
- Give etiology and treatment of: (a) hay fever, (b) enuresis.
- How would you treat gastric ulcer?
- Differentiate between neuralgia and neuritis.
- Diagnose and give treatment of fracture of neck of femur.
- What organs are usually at fault in (1) rheumatism, (2) diabetes?
- Give reduction of downward luxation of first rib.
- Name nerve centers that control: (a) parturition, (b) micturition, (c) defecation, (d) heart rhythm, (e) peristalsis.
- Describe the injury received by the various tissues in a severe sprain of the ankle and outline the treatment for same.
- Name the causes and give treatment of palpitation of the heart.

Submitted by John F. Spaunhurst, D. O.,
Indianapolis, January, 1914.

PRINCIPLES AND TECHNIQUE OF OSTEOPATHY.

- Explain osteopathic theory as to cause of spinal curvature.
- Explain the mechanics of correcting inflammation.
- Explain segmentation applied to the spinal column.
- A lesion at the second and third dorsal vertebra may affect what viscera?
- Upon what is the osteopathic etiology of disease based?
- Give technique of correction: (a) right lateral atlas, (b) anterior fifth lumbar.
- Explain the influences of the vaso-motor system upon (a) the heart, (b) the lungs.
- Give the technique for correcting an anterior innominate.
- Give the therapeutic uses of: (a) heat, (b) cold.
- Give technique of correction of the following: (a) left lateral posterior twist of axis, (b) anterior luxation of 3-6 dorsal.

Submitted by John F. Spaunhurst, D. O.,
Indianapolis, January, 1914.

THEORY AND PRACTICE OF OSTEOPATHY.

- 1. Discuss cough, giving causes, indications and osteopathic treatment.
- 2. Give the general diagnosis of scarlet fever and treatment for same.
- 3. Classify goiters and give the bony lesion predisposing to same.
- 4. Give treatment for cirrhosis of the liver.
- 5. Differentiate pleurisy and pneumonia, and give treatment for pneumonia.
- 6. Indicate the structural changes in infantile paralysis. How treat?
- 7. Define dislocation of a joint. Give classification of joints.
- 8. Differentiate gonorrheal rheumatism from rheumatic fever.
- 9. Indicate the symptoms and treatment in floating kidney.
- 10. Indicate the physiological effects caused by seventh and eighth dorsal lesion.

Submitted by John F. Spaunhurst, O. O.,
Indianapolis, July, 1914.

PRINCIPLES AND TECHNIQUE OF OSTEOPATHY

1. Explain the osteopathic principles involved in the treatment of infectious diseases.
2. Discuss the theory of the osteopathic lesion in relation to disease.
3. Explain how an upper dorsal lesion may affect the eyes.
4. How may the heart be accelerated osteopathically? Give the accelerator fibers to the heart.
5. Describe the pathologic changes which take place in the lesions.
6. Differentiate and give reduction of anterior and posterior lesions.
7. Give the therapeutic uses of hot and cold water.
8. Give general technique of a thorough objective examination.
9. Give technique for control of diarrhoea, (2) constipation.
10. Indicate lesions common in asthma and give technique for their treatment of same.

Submitted by John F. Spaunhurst, D.
Indianapolis, Ind.

OBSTETRICS.

1. Explain in detail the removal of the placenta.
2. What symptoms in the mother indicate the necessity of cesarean delivery?
3. Outline the attention the physician should give the child in the first 24 hours after delivery.
4. During pregnancy, what attention should be given the urinary system?
5. Explain the use of the abdominal bandage in case of the mother.
6. What antiseptics would you use in confinement cases, and why?
7. (a) Describe the foetal circulation. (b) What changes occur at birth?
8. Give principle causes of post-partum hemorrhage. Indicate the treatment.
9. What are the uses of the liquor amnii: (a) during pregnancy, (b) during labor?
10. (a) During delivery, when would you use an anesthetic? (b) What anesthetic would you use, and why?

Submitted by John F. Spaunhurst, D. O.
Indianapolis, Ind.

OBSTETRICS.

1. What are the indications of vaginal tamponing?
2. Give five causes of metrorrhagia.
3. What is meant by mechanism of labor?
4. Give the most important positive and doubtful signs of pregnancy.
5. Give cause and treatment of aphthæ.
6. Describe the relation between ovulation and menstruation.
7. What is meant by dry birth? (b) Give management of rigid cervix in labor.
8. Name three of the most common causes of premature birth.
9. Can the sex of the fetus in utero be determined?

What changes in the blood are produced by pregnancy?

Submitted by John F. Spaunhurst, D. O.,
Indianapolis, January, 1914.

ETIOLOGY AND HYGIENE.

Explain why diphtheria and variola are more prevalent in cold weather than in warm weather.

Name impurities in water that may cause diarrhoea.

Give cause and hygienic measures for prevention of: (a) Tuberculosis, (b) typhoid fever, (c) diphtheria, (d) scarlatina, (e) variola.

(a) Name five food poisons. (b) Name four infective insects. (c) Name the three principal factors in hygienic living.

What is the etiology of: (a) Progressive muscular atrophy, (b) eczema?

Submitted by John F. Spaunhurst, D. O.,
Indianapolis, January, 1914.

ETIOLOGY AND HYGIENE.

(a) What is the germ theory of disease? (b) Name five diseases and their specific organisms.

Describe the most dependable filter apparatus.

What of the theory of hereditary tendency? (b) Discuss briefly whether the State should govern marriage.

How would you prevent: (a) Typhoid, (b) diphtheria?

Give the etiology of: (a) Iritis, (b) migraine, (c) meningitis, (d) chlorosis.

Submitted by John F. Spaunhurst, D. O.,
Indianapolis, July, 1914.

GYNECOLOGY.

1. What conditions would you indicate as surgical in case of misplacement?

2. Give causes and osteopathic treatment of vaginismus.

3. What is your opinion of posture treatment, and why?

4. Indicate the lesions common in cases of menstrual disorders.

5. When would you indicate the use of tampons, and why?

6. Describe a uterine curettment and its dangers. (b) When indicate its use?

Submitted by John F. Spaunhurst, D. O.,
Indianapolis, July, 1914.

GYNECOLOGY.

1. Give symptoms and treatment of cystitis.

2. Give in full treatment of gonorrheal endo netritis.

(a) What is Alexander's operation? (b) State indications for and manner of performing it.

4. Name five causes of sterility.

5. Give differential diagnosis between ovarian cyst pregnancy.
6. (a) How would you diagnose inflammation of the testis?
the most common cause of same?

Submitted by John F. Spaunhurst
Indianapolis

PHYSIOLOGY.

1. What are the functions of the spinal cord and the sympathetic system?
2. Describe the manner of transmission of motor impulses.
3. (a) In what part of the digestive tract is most food digested?
(b) Name the substances absorbed in the large and small intestines.
4. What is meant by refracting apparatus of the eye, and what are the most common errors relating thereto?
5. (a) Describe briefly the secretion of urine. (b) Upon what factors does the quantity of urine secreted depend?
6. (a) What forces govern the circulation of the blood?
(b) How do you understand by blood pressure?
7. (a) Define and give properties of living protoplasm.
(b) What is meant by tetanus?

Submitted by John F. Spaunhurst
Indianapolis, Ind.

PHYSIOLOGY.

1. Describe the general mechanism employed in the respiration.
2. Define: (a) assimilation, (b) excretion, (c) myopia, (d) emmetropia, (e) retina, (f) chyle, (g) plasma, (h) pleura, (i) stapes.
3. Describe briefly the mechanical action of the stomach.
(b) Locate with reference to the stomach the (a) diaphragm, (c) gall bladder.
4. What is the function of the spinal cord? (b) How do afferent and efferent nerve fibers differ from an efferent fiber?
5. What is the function of: (a) pericardium, (b) eustachian tube, (c) crystalline lens?
6. What is urea and where is it formed? What do you know of glycogen?
7. Discuss the four most important physical factors concerning the blood: (a) variations in the pressure and velocity of the blood.

Submitted by John F. Spaunhurst, M.D.
Indianapolis, Ind.

SURGERY.

1. Differentiate dislocation of the head of the femur and fracture of the neck.
2. Give symptoms and treatment of hip-joint disease.
3. Differentiate hydrocele and chronic orchitis.
4. Name the various dislocations of the shoulder joint.

- What is intussusception? Describe an operation for intestinal anastomosis.
- What are the signals of danger in general anesthesia?
- The fracture of what bone in the body is most difficult to reunite by bony union, and how should it be treated?
- What are the indications for operative treatment in all forms of hernia?
- How would you make a diagnosis of gonorrhea? Give a bacteriological examination.
- How would you diagnose retention of urine? Indicate treatment.
- Submitted by John F. Spaunhurst, D. O.,
Indianapolis, January, 1914.

SURGERY.

- Give the differential diagnosis of fracture of the neck of the femur and dislocation of the femur.
- Classify burns and give the treatment for burns of second degree.
- Describe inguinal hernia and give treatment of indirect type.
- What are the indications for the removal of the appendix? Give the post-operative treatment.
- Describe the operation of suspension of the uterus.
- Name the methods of controlling hemorrhage.
- Discuss fibroid tumors of the uterus.
- How should an aneurysm of the femoral artery be treated?
- How would you treat a carbuncle?
- How is suppuration developed? (a) Give symptoms of vesical calculus.
- Submitted by John F. Spaunhurst, D. O.,
Indianapolis, July, 1914.

MATERIA MEDICA AND THERAPEUTICS.

(Regular.)

1. Define preventive medicine, and give illustration of its application.
 2. Name the ten drugs you most frequently employ and give the dose of each.
 3. Name four contraindications for general anesthesia, and state which of the four named you would consider the most important.
 4. Give the common name, and the therapeutic uses of sodium sulphate.
 5. For what purposes and effects is strychnia frequently used in formulae for cathartics?
 6. Name some agents which increase cutaneous action.
 7. Name some agents which increase renal action.
 8. What are the physiologic effects and the therapeutic uses of the balsam of Peru?
 9. What are the therapeutic uses of aconite? Give the dose of the fluid extract of this drug.
 10. Treat a case of opium poisoning; give the therapeutic uses of opium.
- Submitted by S. G. Smelser, M. D.,
Richmond, January, 1914.

INTERNAL MEDICINE.

(Regular.)

1. Define: (a) embolism, (b) thrombus.
2. Define: (a) subjective, and (b) objective symptoms.
3. Where is the aortic regurgitant murmur most distinctly heard?
4. Differentiate acute bronchitis from lobar pneumonia.
5. Differentiate diphtheria from follicular tonsillitis.
6. Give the period of incubation and of eruption of the exanthema.
7. Give symptoms and treatment of intestinal hemorrhage of fever.
8. Give etiology, symptoms and treatment of acute nephritis.
9. Give etiology, symptoms and treatment of acute endocarditis.
10. How should acute coryza be treated?

Submitted by S. G. Smelser, M. D.
Richmond, January.

INTERNAL MEDICINE.

(Regular.)

1. Differentiate in a general way between cerebrospinal fever and tubercular meningitis.
2. Differentiate cardiac hypertrophy from cardiac dilatation.
3. Differentiate empyema from pulmonary abscess.
4. What are the clinical manifestations of biliary calculi?
5. Describe pyuria and state its import.
6. What diseases are liable to occur in the right inguinal region?
7. Give the etiology and outline the treatment for acute gastritis.
8. Give the symptoms and treatment of an ordinary case of scarlet fever.
9. Give the etiology, duration and prognosis of pertussis.
10. Give the symptoms and treatment of exophthalmic goitre.

Submitted by S. G. Smelser, M. D.
Richmond, July, 1902.

MATERIA MEDICA AND THERAPEUTICS.

(Regular.)

1. Define official preparations as applied to preparations of medicinal agents.
2. Name the official preparations of bismuth and give the dose of each.
3. Define anthelmintic and name the remedies of this class.
4. State when calomel and podophyllum should be given and give the reason for the selection.
5. Name four different classes of medicines, with an example of each class. Give dose of example.
6. Name the therapeutic uses of apomorphia and state how codeia differs in its physiologic action from morphia.
7. Mention the remedy which will arrest the secretion of milk and state how it should be employed.
8. Mention the therapeutic uses of iodine.

Describe the therapeutic uses of the preparations of phosphorus.
 Describe the symptoms and treatment of strychnin-poisoning.

Submitted by S. G. Smelser, M. D.,

Richmond, July, 1914.

PATHOLOGY AND BACTERIOLOGY.

What pathologic conditions of the heart may cause disordered circulation of the blood?
 What conditions of the blood may affect the circulation?
 Name the causes and conditions that lead to hypostatic congestion.
 Give the usual causes, and the more common forms of necrosis.
 Give the three cardinal theories, relative to the cause of carcinoma, and state briefly your own views.
 Give one method of staining spirochaeta pallida.
 What is the best method of staining gonococci in order to distinguish them from other diplococci?
 Describe the morphology of the micrococcus meningitis.
 Describe Von Pirquet's method of cutaneous diagnosis of tuberculosis.
 What harmful results have been caused by the administration of diphtheritic antitoxin?

Submitted by W. A. Spurgeon, M. D.,

Muncie, January, 1914.

PATHOLOGY.

Mention the forms of disease in which acid intoxication is present.
 Mention the conditions favorable to thrombosis.
 Name the situations in which primary carcinoma usually occurs.
 Describe the blood conditions in leucocytosis.
 Describe the pathological lesions found in the intestines in typhoid fever.

BACTERIOLOGY.

How is typhoid vaccine prepared?
 What organisms cause sweet apple juice to be converted into vinegar?
 Name some conditions of the human body that increase susceptibility to infection.
 Describe one method of isolation and differentiation of the typhoid bacillus.
 How is the vaccination against rabies carried out?

Submitted by W. A. Spurgeon, M. D.,

Muncie, July, 1914.

ANATOMY.

1. Give the origin, course and distribution of the inferior maxillary nerve.
2. Tell what structures the sixth cranial nerve supplies.
3. Describe the antrum of Highmore, giving its relation to the nasal fossae and the roots of the teeth.

4. Give the relative normal positions of the olecranon condyles of the humerus when the forearm is at humerus.
5. Name the muscles and nerves of the posterior scapula.
6. Give the origin, course and distribution of the plantar nerves.
7. Give the relation of the gall bladder to the transverse colon and pylorus.
8. Give the names of the membranes of the spinal cord to each other and to the cord itself.
9. Describe the renal artery.
10. What comprises the cerebro-spinal axis?

Submitted by W. A. Spurgeon
Muncie, Ind.

ANATOMY.

1. Give the names, origin and insertion of the adductor longus of the thigh.
2. What important blood vessels and nerves are located in the axillary triangle?
3. Describe the thyroid axis.
4. Give the names of the branches of the subclavian artery.
5. Give the locations of the superficial lymphatic glands in the upper extremity.
6. Make a drawing showing the following anatomical structures:
 - (a) A cross section of the spinal cord.
 - (b) A cross section of a spinal nerve with its roots.
 - (c) The relation of the spinal nerve to the sympathetic trunk.
7. Give the names, in their order from without inward, of the refracting media of the eye.
8. Mention five nerve sedatives in the order of their efficiency.
9. Give the relation of the parotid gland to the important vessels and nerves within its proximity.
10. Name the structures contained in the mediastinum.

Submitted by W. A. Spurgeon
Muncie, Ind.

MATERIA-MEDICA AND THERAPEUTICS

(Physio-Medical.)

1. Give the therapeutic properties of *Cypripedium pubescens*.
2. Write a prescription for seborrhea.
3. Give the dose and therapeutic indications for hydrastis.
4. Give the dose and therapeutic indications for oil of erigeron.
5. Give both the old and new formulas of fl. ex. myrica.
6. Give the names of five emmenagogues in the order of their efficiency.
7. In what particulars do *apocynum* and *rosaemifolium* differ in their therapeutic properties.
8. Give the subdivisions of the alimentary canal.
9. Mention five sanative agents that reduce blood pressure.
10. Tell how *podophyllin* is prepared and give its therapeutic uses.

PRACTICE.

(Physio-Medical.)

- the etiology and treatment of rheumatic fever.
- the difference in contrast congestion and inflammation.
- prophylactic management of a family exposed to typhoid infection.
- the prescription for follicular tonsillitis.
- the differential diagnosis of intestinal obstruction and general peritonitis.
- the pathognomonic symptoms of tuberculosis of the kidney.
- the treatment for pulmonary congestion due to mitral insufficiency.
- the etiology and treatment of herpes zoster.
- the treatment for cholera infantum.
- the treatment for erysipelas.

Submitted by W. A. Spurgeon, M. D.,
Muncie, July, 1914.

MIDWIFERY.

- What is the cause of tedious labor? What treatment would you use in a tedious labor?
- Give most reliable signs of early pregnancy.
- When should the child be weaned?
- What treatment would you give when nipples are too short?
- Give the cause and treatment for inflammation of the breast of a nursing mother.
- Name all the medicines you use in your practice as midwife, and tell what you use them for.
- State what teaching and study you have had to prepare yourself for the practice of midwifery.
- What is the usual cause of miscarriage?
- What do you regard as the most important thing to be done when you are first called to a case of confinement?
- How would you treat a case where a mother is flooding after the birth of the child?

Submitted by W. T. Gott, M. D.,
Crawfordsville, January, 1914.

MIDWIFERY.

July, 1914.

- Name all the medicines and drugs you use in your practice as a midwife.
- Why is it necessary that both the mother and the midwife should both be absolutely clean during and after confinement?
- What danger is to be feared for both mother and child from gonorrheal infection?
- How would you care for the eyes of a child immediately after birth?

5. When called to a woman in confinement, what would you do first, and how would you secure that knowledge?
6. What is the most common cause of chill on the day after delivery?
7. How soon after birth of child should the cord be cut, and how do you dress it?
8. How long and where have you practiced midwifery?
9. What education have you had to prepare yourself for midwifery?
10. If called to a case of confinement and found the patient in loss of blood, what would you do while awaiting the arrival of a physician?

OBSTETRICS.

1. Give the anatomical name and diagnostic value of the presenting parts of the fetal head.
2. What in your opinion should be learned at the first case of labor?
3. (a) When should version be performed?
(b) Give technic if both podalic and cephalic version.
4. Name the principal drugs used to facilitate labor and give the reason for the employment of each.
5. Give the cardinal points in the diagnosis of extra-uterine pregnancy.
6. Give method that should be employed and reason for its use at the eighth month.
7. Should the head fail to engage at full time in the procedure is necessary?
8. Give the types of placenta previa and how should each be managed?
9. How would you determine that a fetus was a full-term child?
10. Under what condition would you amputate the uterus of a child by abdominal celiotomy?

PEDIATRICS.

1. Give etiology and treatment for cholera infantum.
2. Give etiology and treatment for enuresis.

Submitted by Dr. W.
Crawfordsville, Ind.

OBSTETRICS.

1. Name the cause or causes that produce a tedious labor.
2. Give methods employed for expediting tedious labor.
3. Describe the technic of a high forcep delivery.
4. Give the positive sign of early pregnancy.
5. In your judgment, what is the first and most important thing to be done in a case of labor?
6. (a) What is the cause of the abortive habit?
(b) What treatment should be employed to prevent the same?

What are the physical signs that full term has been reached and that labor should supervene?
 When should the nursing child be weaned?
 What treatment would you employ for an undeveloped and retracted nipple?
 Give the cause and treatment for puerperal mammitis.

PEDIATRICS.

Differentiate varicella from variola and give treatment for each.
 Name the varieties of croup and give treatment for each variety.

Submitted by W. T. Gott, M. D.,
 Crawfordsville, January, 1914.

MEDICINE.

(Homeopathic.)

Give the therapeutic individuality of antimonium tartaricum.
 Give the therapeutic individuality of capsicum.
 Give the therapeutic individuality of cimicifuga racemosa.
 Give the therapeutic individuality of pulsatilla.
 Give the therapeutic individuality of phosphorus.
 Give the therapeutic individuality of kali iodatum.
 Give the therapeutic individuality of hydrastis canadensis.
 Give the therapeutic individuality of apis mel.
 Give the therapeutic individuality of nux vom.
 Give the therapeutic individuality of aluminum.

Submitted by W. T. Gott, M. D.,
 Crawfordsville, January, 1914.

MATERIA MEDICA AND THERAPEUTICS.

(Homeopathic.)

(a) Define disease; (b) wound.
 If some persons recover who have wounds and some recover who are afflicted by disease, without the employment of treatment of any kind, what is it that produces the healing or recovery in such cases?
 As a matter of fact, can you tell how much, if any, the treatment you employ has influenced the healing or reparative forces?
 Give the etiology and name the varieties of cancer and name a cure, if any.
 Differentiate a common "cold" from la grippe, and give the most effective treatment that may be employed in each.
 Give the cause of chronic nephritis and treatment indicated.
 Name the varieties of indigestion and give the treatment you would employ in each variety.
 Give the etiology and the non-surgical treatment that should be employed in appendicitis.
 Give the causes of premature age and how prevented.
 Give the cause of uremia and the most effective treatment.

Submitted by W. T. Gott, M. D.,
 Crawfordsville, January, 1914.

MEDICINE.

(Homeopathic.)

1. Define coma and give three causes that produce it.
2. Differentiate intercostal neuralgia from pleurisy and give ordinarily indicated for each.
3. Describe the physical signs of croupous pneumonia in its stages.
4. Give the temperature range characteristic of the first, second and third weeks of typhoid fever.
5. Give diagnosis and management of a case of heat prostrated.
6. Is heredity a factor in disease? Illustrate.
7. Mention the variety of casts found in the urine and state the significance of each.
8. Differentiate neuritis from rheumatism.
9. Give diagnosis and remedies ordinarily indicated in chronic rheumatism.
10. Give cause and symptoms of pellagra.

MATERIA MEDICA.

(Homeopathic.)

1. Give the cardinal symptoms that lead you to employ nux vom.
2. Give the cardinal symptoms that lead you to employ ammonia.
3. Give the cardinal symptoms that lead you to employ kali iod.
4. Give the cardinal symptoms that lead you to employ creosotum.
5. Give the cardinal symptoms that lead you to employ camphora.
6. Give the cardinal symptoms that lead you to employ cannabis indica.
7. When should a patient be advised to seek a low altitude?
8. When should a patient be advised to seek a high altitude?
9. Name the remedy or remedies most useful during the period of menstruation.
10. What remedies are most commonly indicated for the nervous system incident to the climacteric?

Submitted by W. T. Gott
Crawfordsville, July

OSTEOPATHY.

Additional Section 4. The said Board may grant limited certificates which shall authorize the proper clerk to issue to the holder thereof a license to practice osteopathy only. Such certificate shall be issued on the same terms and conditions as others, except that the applicant therefor shall not be required to pass an examination in materia medica, nor shall the college from which he presents a diploma be required to conform to the standard fixed by said Board as to instructions in materia medica, but such college shall so conform in all other branches of instruction. Such license shall not authorize the holder thereof to administer or prescribe or use on one other than himself any drugs or medicines, and any such administration, prescription or use of any drug or medicine by the person holding such limited license shall be practicing medicine without a license, and such person shall be punished therefor as others are punished for practicing medicine without a license: Provided, further, That any person now holding a diploma issued from any college of osteopathy in the United States, and [who] is [now] a resident of the State of Indiana, shall be granted a certificate and license to practice osteopathy upon presenting his diploma to said Board and Clerk and paying the fee required by this act.

MAY 15, 1901.

WHEREAS, By the amendments of 1901 to the Medical Act, the State Board of Medical Registration and Examination may grant limited certificates which will authorize the proper clerk to issue a license to practice osteopathy only; and,

WHEREAS, It is provided by the law that "such certificate shall be issued on the same terms and conditions as others, except that the applicant therefor shall not be required to pass an examination in materia medica, nor shall the college from which he presents a diploma be required to conform to the standard fixed by said Board as to instructions in materia medica, but such college shall so conform in all other branches of instruction; therefore,

Resolved, That all applicants for registration to practice osteopathy in the State of Indiana and the colleges from which they procured their diplomas must comply with the schedules of mini-

num requirements in force at the time of application, except in so far as pertain to materia medica.

Inasmuch as the law regulating the practice of medicine, surgery and obstetrics in Indiana was, in 1901, so amended as to exempt from examination applicants for registration to practice osteopathy, who were, on March 11, 1901, residents of this State and possessed of diplomas from an osteopathic college in the United States; therefore, in order to establish what constitutes such college.

Resolved, That the diplomas of such applicants must have been issued by institutions possessing equipment and a curriculum equal to that fixed by the Associated College of Osteopathy, as set forth by its constitution in 1898.

Resolved, That graduates of osteopathic colleges in good standing, who matriculated therein prior to March 11, 1901, and who have, in all other respects, complied with the requirements of this Board of Registration, be and are eligible to examination as to qualification for registration: Provided, That on and after said date a certificate of qualification to practice osteopathy will be issued to an applicant therefor on the same terms and conditions as others, except that he shall not be required to pass the examination in materia medica, nor shall the college from which he presents a diploma be required to have conformed to the standard fixed by this Board as to instructions in materia medica, but such college shall have so conformed in all other branches of instruction.

Section 1. Be it enacted by the General Assembly of the State of Indiana, That within sixty days after this law goes into effect it shall be the duty of the Governor to appoint an additional member of the State Board of Medical Registration and Examination, which Board shall thereafter consist of six members, each of whom shall serve as heretofore for a term of office of four years, and until his successor shall have been appointed and qualified. The additional member so appointed shall be a reputable practicing physician and a graduate of a reputable school or college of the system by which he practices, and shall belong to some school or system of practice other than those which are now represented upon said Board, and his successor shall in the future always be of some school different from that of the remaining members of the Board: Provided, That any osteopathist now practicing in and a resident of the State of Indiana, and holding a diploma from a reputable college of osteopathy, as determined by the State Board of Medical Registration and Examination, shall be eligible to an examination on proper application to said Board, and should he pass this exami-
